

***Declaration on the exemption from compulsory  
statutory insurance as a student under  
§ 8 Abs. 1 Nr. 5 SGB V***

Last Name:

First Name:

Date of Birth:

---

I was informed in detail about the consequences of the exemption from statutory insurance.

I'm fully aware that:

- **the exemption is irrevocable**
- **readmission to the state insurance for students is impossible for the whole duration of study**
- **the exemption is still valid after immediately starting new studies, changing the course of study or changing universities**
- **the exemption is still valid if I interrupt my studies and continue them later on**
- **it's also not possible to apply for complimentary family insurance via parents or spouse while studying**
- **admission to state insurance is still impossible after the private insurance expired, its price increased or termination of benefit.**

**The only way to regain insurance after your studies is to become compulsorily insured by e.g. entering employment.**
